CITY ORDINANCE,

TO PROMOTE PUBLIC CLEANLINESS AND HEALTH.

Approved March 9th, 1867.

Section 5.—That no dwelling-house, store or other building shall be erected or altered in any street or alley in which there is a sewer, without providing an underground connection by drain-pipes with the sewer for carrying off all drainage that would otherwise flow over the footway; and in all cases where there are gutters now over the footway which, in the opinion of the Chief Engineer and Surveyor, approved by the Committee on Surveys and Regulations, are objectionable, and are situated upon a street where there is a sewer, or where, in the erection of new buildings after the passage of this Ordinance, the directions herein specified have been disregarded, it shall be the duty of the Chief Engineer and Surveyor to give written notice to the owner or occupants of the premises, to connect with the sewer or underground drainage; and in case of non-compliance with said notice, for the space of ninety days after the service thereof upon the owner or occupant, there shall be incurred by said owner the penalty of thirty dollars for each month of failure.

TO

Architects, Builders, Furnace Dealers, Stonemasons, and Bricklayers,

WE ARE NOW MANUFACTURING

A SUPERIOR

Terra Cotta Flue Pipe,

—FOR—

HOT AIR, SMOKE, ETC.,

ALSO USED FOR

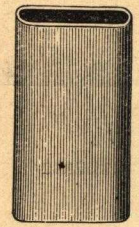
Ventilation of Hospitals, Asylums, Prisons, Dwellings, &c., &c.

These Flues being of an oblong shape, can be placed in a 9 inch brick wall without any projection and requiring no brick work in front of them to keep them in their place, thereby economizing space.

Flues can be started in any part of a building, and in any story, with perfect safety.

And No. 6 South Seventh Street.

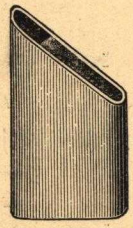
Terra Cotta Flue Pipe.



STRAIGHT.

REGISTER.

PIPE HOLE.



ANGLE.

Chimney Flues are manufactured all sizes, and a large assortment always on hand. They cost about one half the price of Tin or Iron, and being hard burned, the Coal Gas does not affect them.
